TERMS OF SERVICE

TERMS OF SERVICE

1. INTRODUCTION:

Deedy is an NFT platform interface maintained by a decentralized team of developers.

2. MODIFICATION OF THIS AGREEMENT:

We reserve the right, in our sole discretion, to modify this Agreement. All modifications become effective when they are posted, and we will notify you by updating the date at the top of the Agreement.

3. ASSUMPTION OF RISK:

By accessing Deedy's software, you accept and acknowledge: The prices of blockchain assets are extremely volatile and we cannot guarantee purchasers will not lose money. Assets available to trade on Deedy should not be viewed as investments: their prices are determined by the market and fluctuate considerably. You are solely responsible for determining any taxes that apply to your transactions. Deedy's services are non-custodial, such that we do not at any time have custody of the NFTs owned by our users. We do not store, send, or receive Digital Assets, as they respectively exist on the blockchain. As such, and due to the decentralized nature of the services provided, you are fully responsible for protecting your wallets and assets from any and all potential risks. Our software indexes NFTs on the Ethereum blockchain as they are created, and we are not responsible for any assets that users may mistakenly or willingly access or purchase through the software. You accept responsibility for any risks associated with purchasing such user-generated content, including (but not limited to) the risk of purchasing counterfeit assets, mislabeled assets, assets that are vulnerable to metadata decay, assets on faulty smart contracts, and assets that may become untransferable.

in the interface will be accurate, reliable, complete, or current; or that the Interface will be free from errors, defects, viruses, or other harmful elements.
